**\$45.00 (C)**

### ITEM: BBACTNATURAL

The partners at a large law firm were looking for a curated gift option to welcome their new team of interns to the office. They wanted a gift that would have wide appeal and provide a few desk essentials to make the interns feel prepared to start their roles at the firm. Our eco-friendly Act Natural kit, which features a cork notebook, glass bottle, reusable straw and upcycled snacks, fit their vision perfectly. The interns were presented with the kits during their first onboarding meeting. The snacks and water bottle kept them fueled and hydrated through their training while the notebook came in handy for taking notes during the session and beyond.
