ITEM: BBSWEETRETREAT (with modifications)

A cybersecurity company wanted to give its employees a sleek, luxurious gift to thank them for their hard work throughout the year. They loved our Sweet Retreat kit but wanted to include a few tech-forward items to match their brand. Their larger budget allowed them to swap the Wine Tumbler for a pair of 2 Buds Wireless Earbuds and swap the blanket for the Loungepad Wireless Charger. Their bright, modern logo contrasted beautifully against the all-white color scheme of the kit.
